

IonClear Announces Landmark Partnership with Muscat Gases Company

(The picture above shows IonClear's CEO Cady Yu at the project signing ceremony.)

Dubai, UAE– April 2025 -IonClear is proud to announce a strategic partnership with Muscat Gases Company, a leader in the oil and gas sector in the Sultanate of Oman. This collaboration marks a groundbreaking milestone in IonClear's market expansion.

Through this Memorandum of Understanding (MOU), IonClear will provide cutting-edge technology for seawater and brackish water desalination to the Omani market. This agreement establishes a first-of-its-kind facility in Al Rusayl Industrial City for manufacturing advanced water treatment and desalination membranes.

“This MOU represents a bold step forward for IonClear, as we bring our most advanced membrane technologies to the world's most dynamic market”, says IonClear founder, Cady Yu.

Through the agreement between the two parties, IonClear commits to bringing its most advanced Seawater RO/Super-anti-fouling BW RO/Special Separation membranes to this market with the highest global competition threshold.

The partnership will collaborate to drive the market growth of IonClear in the Middle East. As a result of the MOU, more than 25 leading petrochemical companies are expected to adopt IonClear membranes at a large scale in the near future. Through this long-term collaboration, IonClear is projected to provide over 130,000 premium membrane elements.
